

**Minutes of Library Strategic Planning Committee meeting
November 4, 2020**

- Discussed potential tracks of work for 2020-2021, with a particular focus on input from our newest members, who are joining this discussion after other LSPC members have already had an opportunity to reflect and discuss.
- Discussed approaches for narrowing down the potential tracks of work that have been proposed. Several have been discussed, and we have the bandwidth to focus a small number of initiatives. (Especially because nearly half of the academic year has already passed, and the pandemic creates additional constraints). Members will work to craft brief proposals (about 2-5 sentences long) for specific tracks of work.
